Onyx Ridge Website Functionality

SignIn Menu
- Users input Email and Password in order to log in
- If password is incorrect, user will not be authorized

Projects Tab
- This tab allows the user to browse through different projects
- Different project folders have specific documentation: Daily Logs, Photos, and other Documents
- Users are also able to download documentation through this tab as well
- To get back to the main project view click "Projects" in the top bar.

Create Project Tab

- This tab allows the user to enter a new project name
- Project Name must be longer than 6 characters
- Though this, new project is created and other users can add daily logs, and other documentations

Add User Tab

- This tab is strictly used by the Admin
- Allows the Admin to create a new user using an Email and Created Password
- Must enter Valid email and a password that is longer than 6 characters
- Once created the user can use their email and password to login into app

SignOut Tab
- Once clicked User is logged out from Website, and brought back to Login Menu
